

CHIZZY IBEMERU

Career Profile

Product Designer with a strong passion for Web Development. Currently enjoying the sunny side of the world in Port Harcourt, Nigeria.

A Little Bit About Me

For more than 3 months now, web design has been the central piece of my world. On this fast and mind-blowing journey, I have moved over the last few months from being a total beginner to building little projects with HTML, CSS and JavaScript.

At the moment, I am learning on the Zuri program and plan to develop myself to build startups that will solve real world problems.

With the constant goal of pushing myself to break boundaries and maintaining a high level of motivation. I have plan work with various startups and clients from all around the world and help them create amazing and engaging digital products.

The Skillset

Web Design

Websites, applications or other design related tasks. I love tackling digital problems and help fix them

Communication

Effective communication helps solve many problems in today's global space.

Project Management

Defining the problem, identifying the scope and finally, organising the design roadmap to bring out 100% of every project.
